GUIDED MISSILE AND ASTRONAUTICS INTELLIGENCE COMMITTEE

23 March 1959

MEMORANDUM FOR: Air Force Member, Guided Missile and Astronautics Intelligence Committee

SUBJECT : Monitoring of [REDACTED] Approved SAM Site Designation System 25X1C

25X1C

Use of the approved [REDACTED] approved SAM Site Designation System requires that a single point of origin for the grid system be arbitrarily selected. In order to assure that all users of the system work from a common point of origin, it is requested that the Air Force accept the responsibility for:

- a. Selection and/or coordination of the origin of the grid system for all Soviet SAM defense systems.
- b. Advising GMAIC of the actions taken so that this Committee can officially inform the participants.
- c. Informing this Committee of any problems which are beyond their capability to solve.

EARL McFARLAND, JR.
Colonel, USAF
Chairman
